Re: DaTscan FDA-2011-E-0367

The Honorable David J. Kappos
 Under Secretary of Commerce for Intellectual Property
 Director of the United States Patent and Trademark Office
 Mail Stop Hatch-Waxman PTE
 P.O. Box 1450
 Alexandria, VA 22313-1450

Dear Director Kappos:

This is in regard to the application for patent term extension for U.S. Patent No. 5,310,912 filed by GE Healthcare Limited, under 35 U.S.C. § 156. The human drug product claimed by the patent is DaTscan (Ioflupane I-123 injection), which was assigned new drug application (NDA) No. 22-454.

A review of the Food and Drug Administration's official records indicates that this product was subject to a regulatory review period before its commercial marketing or use, as required under 35 U.S.C. § 156(a)(4). Our records also indicate that it represents the first permitted commercial marketing or use of the product, as defined under 35 U.S.C. § 156(f)(1).

The NDA was approved on January 14, 2011, which makes the submission of the patent term extension application on March 7, 2011, timely within the meaning of 35 U.S.C. § 156(d)(1).

Should you conclude that the subject patent is eligible for patent term extension, please advise us accordingly. As required by 35 U.S.C. § 156(d)(2)(A) we will then determine the applicable regulatory review period, publish the determination in the *Federal Register*, and notify you of our determination.

Please let me know if we can be of further assistance.

Sincerely yours,

Jane A. Axelrad

Associate Director for Policy

Center for Drug Evaluation and Research
